

EDITORIAL EJAFB (2)

Editor in Chief: PhD Associate Professor Ovidiu BUNGET

As the academic holiday has come to an end (2013), here we are, “ready” to launch the second number of The European Journal of Accounting, Finance & Business (EJAFB).

If the publication of the previous edition was, let’s face it, greatly, due to our colleagues from the University “Stefan cel Mare” of Suceava (FSEAP), it is now our turn – the partners from the West University of Timisoara (FEAA) – as reliable collaborators, to tend to this edition, including the writing of the present editor’s review.

Mention must be made of the fact that, as a result of multiple collaborations, we have peer-reviewed and selected for publication the papers we now have the pleasure and the honor to bring to your attention, distinguished readers of EJAFB.

We have clearly welcomed especially those contributors from abroad, whose papers of distinct value have already been printed. This explains the presence in this edition of the work of Italian researchers –Gustavo BARRESI and Carmelo MARISCA (University of Messina) – or Portugal - José R. Pires MANSO, João MONTEIRO and Sara FERREIRA (Universidade Beira Interior). On the other hand, the present edition also includes papers written by our Romanian counterparts, from the public universities of Tg. Mureş or Suceava, as well as those developed by Mihaela GONDOR, Gheorghe MOROŞAN or Camelia IGNATESCU. Each of these papers focuses on topics encompassed by the EJAFB. All you have to do in order to ascertain the above mentioned scientific

contributions is to open the pages of our journal once again and, in keeping with the spirit of each edition, we promise to bring to your attention scientific papers of increasingly high quality.

Yours faithfully,

Editor in chief,

*Assoc. Professor PhD. **OVIDIU BUNGET**,*

West University of Timișoara
